

Quick Payroll

QuickPayroll is designed to meet the needs of small-to-medium sized businesses in Kenya that wish to automate their payroll requirements. It is easy to set-up and maintain, and complies with all the tax laws and statutory requirements in Kenya, Uganda and Tanzania.

Why use QuickPayroll?

- **Quick setup** - It is intuitive and user friendly interface helps one get started in no time.
- **Saves time** - Automates the task of managing the payroll, therefore making the one
- **Integration** - Easy to integrate with various Human Resource management and Accounting systems
- **Compliance** - Meets all Kenya Revenue Authority (KRA) statutory requirements.
- **Integration** - Can be easily integrated with payment system for a seamless salary transfer to employees' bank accounts
- **Record keeping** - The data of the transactions are stored therefore they automatically generate end of year and end of month reports.
- **Accurate data** - You'll not have to worry about mistakenly sending the wrong amount to employees.
- **Unlimited transactions** - It has no limit on the number of employees or transactions.

Key Features

- Automatic payroll processing including all the salary deductions and earnings.
- Reports of cumulative transactions.
- Ability to set up multiple transactions for the same employees.
- Automatically calculates all the salary deductions.
- Integrates with other payment system to send salaries to employee bank accounts.

How it Works

- The system is set up and all the statutory deductions are keyed into the system.
- The employees and their details are added.
- Transactional details are added. They include: payments, deductions, saving and loans.
- Payroll is processed and reports are automatically generated.
